

## Jeffrey Beers Brings New York's Ascent Lounge to Life

September 12, 2016

New York's Time Warner Center has welcomed the new nightlife concept the [Ascent Lounge](#). Housed on the fourth floor, the cocktail lounge and event venue features in an open floor plan that maximizes views of city attractions such as Central Park and Columbus Circle.

[Jeffrey Beers International](#) has crafted a sexy, modern design across the 5,500-square-foot space. An elegant, neutral palette is balanced with vibrant pops of rich color accented by mirrored panels, ceiling coffers, and crystal chandeliers. Geometric elements are detailed with shades of plum, raspberry, gold, and silver for a seductive tone. Also included are stitched banquettes and a custom mirrored backbar with floating shelves. A raised platform wraps around banquettes to form an elevated seating space overlooking the lounge and affording direct bar access.

Led by City Nights Hospitality, Ascent joins the Shops at Columbus Circle's Restaurant and Bar Collection along with Manhattan fixtures like Per Se, Porter House, MASA, and Landmarc.
