## DINING BY DESIGN

In March, **DIFFA: Design Industries Foundation Fighting AIDS** hosted its signature fundraiser **DINING BY DESIGN** raising more than \$700,000 toward its grant-making efforts to HIV/AIDS organizations nationwide. The 2018 event brought together over 40,000 guests to experience an array of themed dining installations by more than 30 designers, architects, manufacturers and brands. Participants had two days to transform a 30,000 square foot space into an immersive installation, infusing bold colors, eye-catching materials and powerful messaging into their individual dining vignettes.
