# Jeffrey Beers International Restores the Dune Restaurant in the Bahamas

Will Speros • June 21, 2017

Jeffrey Beers International (JBI) has unveiled its restoration of the iconic Dune restaurant at the One & Only Ocean Club in the Bahamas. The venue suffered considerable damage in October 2016 following a hurricane.

Spanning 226 seats across its dining and lounge areas, the interior has maintained its resort-style ambiance but has been brightened with a new material palette that includes dove gray Anigre wood millwork, warm gray upholstery accented in coral fabrics and abstract, geometric patterns, and porcelain floor tiles finished in cerused wood.

The resort's Hartford Wing is reimagined with contemporary décor included in expansive rooms and suites crafted by JBI. The new design draws upon the natural colors of the Bahamas with cerulean blue and cool turquoise offsetting a palette of warm ivory and cream that mirror the sea and sky.
