These Gymnasiums Around The World Are Now High-Design Homes And We're Seriously Impressed

July 22, 2019 by Natasha Bazika

Who doesn't love soaring ceiling heights and large windows? We certainly do. In fact, some of the most jaw-dropping homes we've seen have been transformed from recreational spaces to high-end design homes. The benefit of using unconventional structures are the quirky and unique interior details, which are often highlighted by designers to become the focal point of the home. Here are six gymnasiums turned exceptional residences around the world that have us in awe.

A 7,000-square-foot, four-bedroom home at 213 West 23rd Street in Chelsea, New York City, is the former YMCA McBurney branch gymnasium. Designed by **Annabelle Selldorf** and **Jeffrey Beers**, the converted space features a central glass-enclosed walnut staircase, 29-foot ceilings and an abundance of natural light. ←
