New York-based design firm [Jeffrey Beers International \(JBI\)](#) has completed its update of the iconic 1950s eatery [Silver Lining Diner](#) in Montauk, New York. Reimagined with a classic American diner ethos bucking retro conventions, the Southampton institution now features a refreshing and contemporary ambiance with a crisp palette of sunny yellows, warm whites and wood accents.

The spacious 270-seat restaurant comprises a series of intimate spaces differentiated with seating variations including booths and banquettes, as well as spots by the bar and horseshoe-shaped coffee counter. A communal table and a 40-seat outdoor patio are also featured across the roadside concept.
