The Newbury Boston

Located on posh Newbury Street, overlooking Boston Public Garden, the Newbury will debut as Boston's most highly anticipated hotel. The building, which dates back to 1927, is getting a top-to-bottom renovation courtesy of Champalimaud Design (responsible for the 286 rooms and suites) and Jeffrey Beers, who's designing the public spaces and restaurants. A rooftop restaurant with panoramic views of the park and the Street Bar will be helmed by Major Food Group. *Opening in February 2021; thenewburyboston.com*
